This convict ~~was~~ complaining of some vague pains in the Lumbar region and chest ever ^{since} his admission into the jail and attending the out-patient for some time every day. He was admitted in the hospital on 5-7-1938 for Dysentery as he was passing blood and mucous in his motion though nothing could be found in the motion under the microscope.

He was given regular courses of Emetin Hydrochloride in addition to the special diet etc as advised by the District Medical Officer when he was in Medical charge of the Jail (~~during~~ for some time in the latter part of July 1938).

Though passing of blood and Mucous have disappeared he still complains of some vague and imaginary pains in the epigastrium.

As all the medicinal and dietetic treatment given to him in this Hospital does not seem to have given him complete relief, it is considered desirable to send him to Government Head-Quarter Hospital, Bellary after obtaining the sanction of the Inspector-General of Prisons.
